

ZARRAR ABBAS

AR/VR Developer • Python Developer • AI/ML Enthusiast

Karachi, Pakistan • zarrarabbas73@gmail.com • +92-306-2305023 • [linkedin.com/in/zarrar-abbas-75b85630b/](https://www.linkedin.com/in/zarrar-abbas-75b85630b/)

PROFESSIONAL SUMMARY

Final-year BS Computer Science student at Dawood University of Engineering & Technology (DUET), Karachi, with a CGPA of 3.65 and a scholarship award. Specialized in Augmented and Virtual Reality (AR/VR) development using Vizard 8 and SightLab VR Pro, bridging immersive technology with AI/ML pipelines. Hands-on experience in Python scripting, computer vision, machine learning, penetration testing, and web scraping. Seeking to contribute to cutting-edge AR/VR projects and immersive experience design.

TECHNICAL SKILLS

AR/VR Tools: Vizard 8, SightLab VR Pro, Eye-Tracking Integration, 3D Interaction Scripting

Languages: Python, Java, C#

AI / ML: Machine Learning, Computer Vision, OpenCV, Scikit-learn, Data Prediction & Visualization

Web & Scraping: Web Scraping (BeautifulSoup, Selenium, Flask), HTML, CSS, Bootstrap, Web Development

Security: Penetration Testing, Cybersecurity, Network Vulnerability Analysis, Threat Detection

Databases: MySQL, SQL

Tools & Platforms: Ticketing & Chat Systems, Reporting Tools, Technical Documentation

PROJECTS

A&VR-Based Interactive Learning System for Computer Science Concepts *Final Year Project (FYP) — Ongoing*

Vizard 8 · SightLab VR Pro · Python · C# · 3D Interaction · Eye-Tracking

- Developing an immersive AR/VR educational platform to teach CS concepts through interactive 3D environments.
- Integrating eye-tracking via SightLab VR Pro to analyze student engagement and adapt learning experiences in real time.
- Scripting complex 3D interactions and scenario logic in Python and Vizard 8, targeting university-level CS curriculum.
- Designed to bridge the gap between abstract CS theory and hands-on understanding through immersive visualization.

Smart Attendance System Using Machine Learning & Camera

Python · OpenCV · Machine Learning · Computer Vision

- Developed a real-time automated attendance system using facial recognition via camera input.
- Integrated ML models to accurately identify and log student attendance, eliminating manual tracking.
- Built with Python and OpenCV, demonstrating applied computer vision in an institutional setting.

Data Prediction and Visualization System

Python · Scikit-learn · Data Analysis · Visualization Libraries

- Designed a data pipeline for predictive analysis using ML models to surface actionable insights.
- Built interactive visualizations to communicate complex data patterns clearly and effectively.

Python Web Scraping Suite with GUI & Web App

Python · BeautifulSoup · Selenium · Flask · Full-Stack

- Built a full-stack data collection system with a user-friendly GUI and web application frontend.
- Utilized BeautifulSoup, Selenium, and Flask to extract and process data from diverse web sources.
- Demonstrated full-stack development proficiency by integrating scraping pipelines with a web UI.

WORK EXPERIENCE

Cybersecurity Analyst | Cybarrier Solutions Pvt Ltd

Dec 2024 – Jun 2025

- Monitored and analyzed system vulnerabilities to prevent data breaches and unauthorized access.
- Implemented security protocols, threat analysis frameworks, and incident response strategies.
- Generated detailed security reports and recommendations to minimize organizational risk.

CPA Marketing Associate (Remote) | Freelance

Dec 2024 – Jun 2025

- Managed affiliate marketing campaigns with data analysis, traffic monitoring, and compliance tracking.
- Developed strong skills in detecting unusual online traffic behavior — directly applicable to security roles.

Customer Service Ambassador | TCS Pakistan

May 2021 – Jun 2022

- Handled customer queries via chat, phone, and in-person channels with professionalism.
- Collaborated with internal teams for timely issue resolution and complaint management.

EDUCATION

BS Computer Science

Expected Sep 2026

Dawood University of Engineering & Technology (DUET), Karachi

- CGPA: 3.65 | Scholarship Awardee | Final Semester
- Relevant Coursework: AI/ML, Data Structures & Algorithms, Cybersecurity, Computer Networks, Database Systems, Embedded Systems, Advanced Multimedia

Intermediate

2021

Government Boys High School, Sindh, Pakistan

- Awardee, Leadership Excellence

CERTIFICATIONS

- CSS, Bootstrap, JavaScript & PHP — Full Stack Complete Course
- Information Technology Specialist: Python
- Advance Python Programming & Applications

ACHIEVEMENTS & ADDITIONAL INFO

- AR/VR Specialization: Hands-on development experience with Vizard 8 and SightLab VR Pro for research-grade immersive XR applications.
- Academic Excellence: CGPA 3.65 with Scholarship Award at DUET — consistently among top-performing students.
- District-Level Athlete — Marathon: Selected to represent the district in marathon racing, demonstrating endurance, discipline, and mental resilience.
- District-Level Athlete — Cricket (All-Rounder): Selected at district level as an all-round cricketer, showcasing teamwork, leadership under pressure, and strategic thinking.
- Languages: English (Professional), Urdu (Native)
